Its internationally recognised FinTech scene, the capital is an attractive location. Berlin is home to both a range of start-ups and to renowned banks, funding institutions, capital providers, the savings bank and insurance companies – all serving to make it the No. 1 FinTech hotspot in the EU. More precisely: one third of all German FinTech start-ups are based on the Spree. The city attracts investors, capital and talent from all over the world in a way that is unique for Germany. The FinTech Hub therefore has an exceptional profile with its objective being to

promote the innovation potential of Berlin's FinTech players and to strengthen the city as a location. The FinTech Hub Berlin addresses future topics such as talent acquisition, diversity and sustainability in the financial sector or cryptocurrencies and encourages discussion and exchange through various formats and offers. As a networking platform for FinTechs and stakeholders, the hub acts as a mouthpiece for policymakers and a forum for communication.
